

ESBL Risk-Based Assessment for Patient Placement

Patient identified with ESBL (check organism)

DISPOSAL OF BODY FLUIDS IN A DIRTY UTILITY ROOM IS A HIGH RISK ACTIVITY

- Ensure apron and gloves are worn when disposing of infectious waste in dirty utility room
- Dispose of body fluid into sluice, taking care not to cause splashing
- If possible, place the waste receptacle into the sanitiser immediately
- Clean and disinfect sluice bench and sanitiser handle with chlorine-based disinfectant after disposing of body fluid regardless of whether any spillage occurs
- Remove and dispose of apron and gloves in dirty utility room, then perform hand hygiene using ABHR.

**Risk refers to the risk of spread to other patients in the healthcare setting
To be used in conjunction with CDHB IPC Guidelines for Control of MDRO*

Contact IPC Service of further assistance is required
