

Care Pathway Presentation Criteria

Care Pathway Presentation Requirements:

Suggested presentation formats may include (but is not limited to):

- Power point
- Hand outs
- Verbal presentation
- Poster
- Pamphlets
- Prezi

The presentation and formal evaluations may be included in your PDRP portfolio as supporting evidence of meeting your registered nurse competencies. This is optional. If you require YouTube or equivalent you must let the facilitator of the day know as this has to be organised. **Please provide a printed reference list to give to the assessors on the day.**

Length of presentation:

- 12 minutes presentation, followed by 3 minutes question/answer time (15 minutes total)
- Timing is noted. It is important that you practise to make sure you are within the time limit. We will let you know when you reach 10 minutes within your presentation and you will be asked to stop presenting at 12 minutes. You will then have 3 minutes allocated for questioning and you will be asked to stop this at 3 minutes also if needed. The rationale for this is so that we get through all presentations within the allocated study day timeframe.

Note: *Please upload the completed consent form to the HealthLearn NetP site, prior to gathering information from the person, as outlined on the HealthLearn NetP site.*

You must obtain 60% to pass the Care Pathway presentation.

If you receive less than 60% you will represent your Care Pathway, but will not achieve a grade higher than 60% on the resubmitted work. If you are unsuccessful on your resubmit you will be placed on the remedial assistance pathway.

The Care Pathway presentation criteria being assessed follows over the page:

<p>5.0 Reflects how caring for the patient/client and whanau impacted on your development:</p> <p>5.1 Outline positive aspects and challenges of the care process</p> <p>5.2 Demonstrates understanding of your impact on the patient journey</p> <p>5.3 Highlights reflection on practice</p> <p>5.4 Discusses opportunities for further development and consolidation of practice</p>	<p>20%</p>
<p>6.0 Evidence-based practice</p> <p>6.1 Acknowledges or identifies a policy, guideline or procedure that is relevant to the presenting complaint</p> <p>6.2 Evidence of linking Care Pathway with evidence-based practice, supported by research articles and reference list is supplied using APA Style 6th Ed</p>	<p>10%</p>
<p>Overall Comment</p>
