

Making it better for you Auto-Enrolment

The new auto-enrolment feature means that you can look at the outline of a course without being forced to enrol. However, as soon as you start using the course, you get enrolled without needing to do anything else.

Fundamental Series: Diabetes (FS04)

This course aims to take you through the fundamental knowledge and skills required to care for a patient with diabetes.

Key words: diabetes diabetic fundamentals.

You can look at the course page – and as long as you just look, you won't get enrolled.

Physiology and Pathophysiology

There are a huge range of resources available on the web to understand Diabetes physiology and pathophysiology. Take your time to view you may like to take some notes so that by the end of this course you will be able to discuss:

- What is diabetes,
- Types of diabetes,
- Glucose metabolism
- Diagnosis

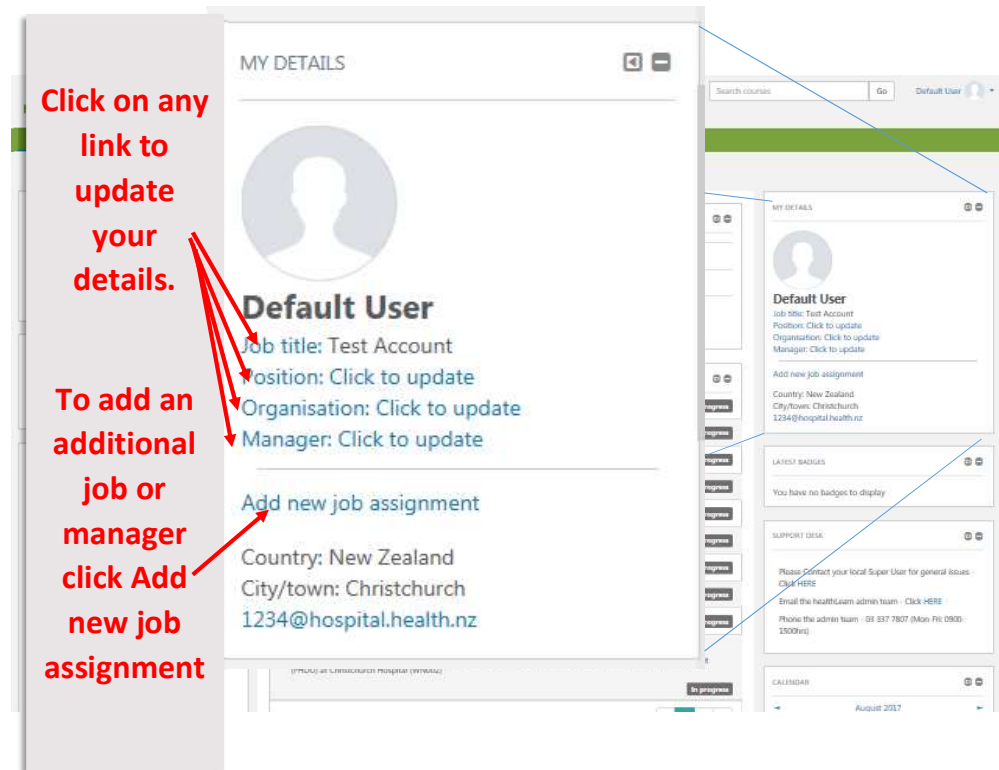

- [Diabetes](#)
- [What is diabetes.](#)

As soon as you click on a link inside the course you are then enrolled.
No need to do anything else

Note: Some courses and forums will still be password protected and you will need to contact the course tutor/s for access.

Making it better for you The 'My Details' Block

The My Details Block (box) on your dashboard is a quick and easy way to check that your details are up to date – and update them if they are not. By not having your details up to date you may miss out on important information, or being able to access some content.

Click on any link to update your details.
